

GROW more with us.

Maximize yields and increase profits with the GROW Mobile System.

When you're ready to start growing more efficiently, Spacesaver is your one-stop shop for expert space-planning assistance and the best products in indoor horticulture. From the earliest design conversations to installation and long-term maintenance, our consultants work with you and your team to improve efficiency and increase profits.

Why Choose Spacesaver?

- Local expertise and experience with more than 40 distributors across North America
- Your complete cannabis solutions provider
- Safety is our culture
- Customized just for you
- Quality and Durability with tens of thousands of high-density systems in operation for decades
- Made in the USA

CHALLENGE

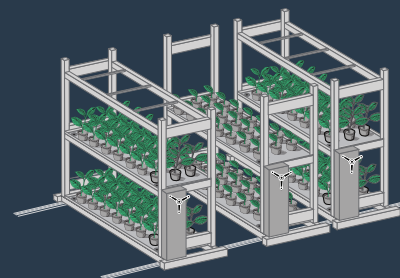

Standard Tables Waste Space

Standard tables waste space both vertically and horizontally. Every aisle is a missed opportunity to grow more, and you're paying to heat and cool the empty air above the tables.

SOLUTION

GROW Mobile System Maximizes Yield

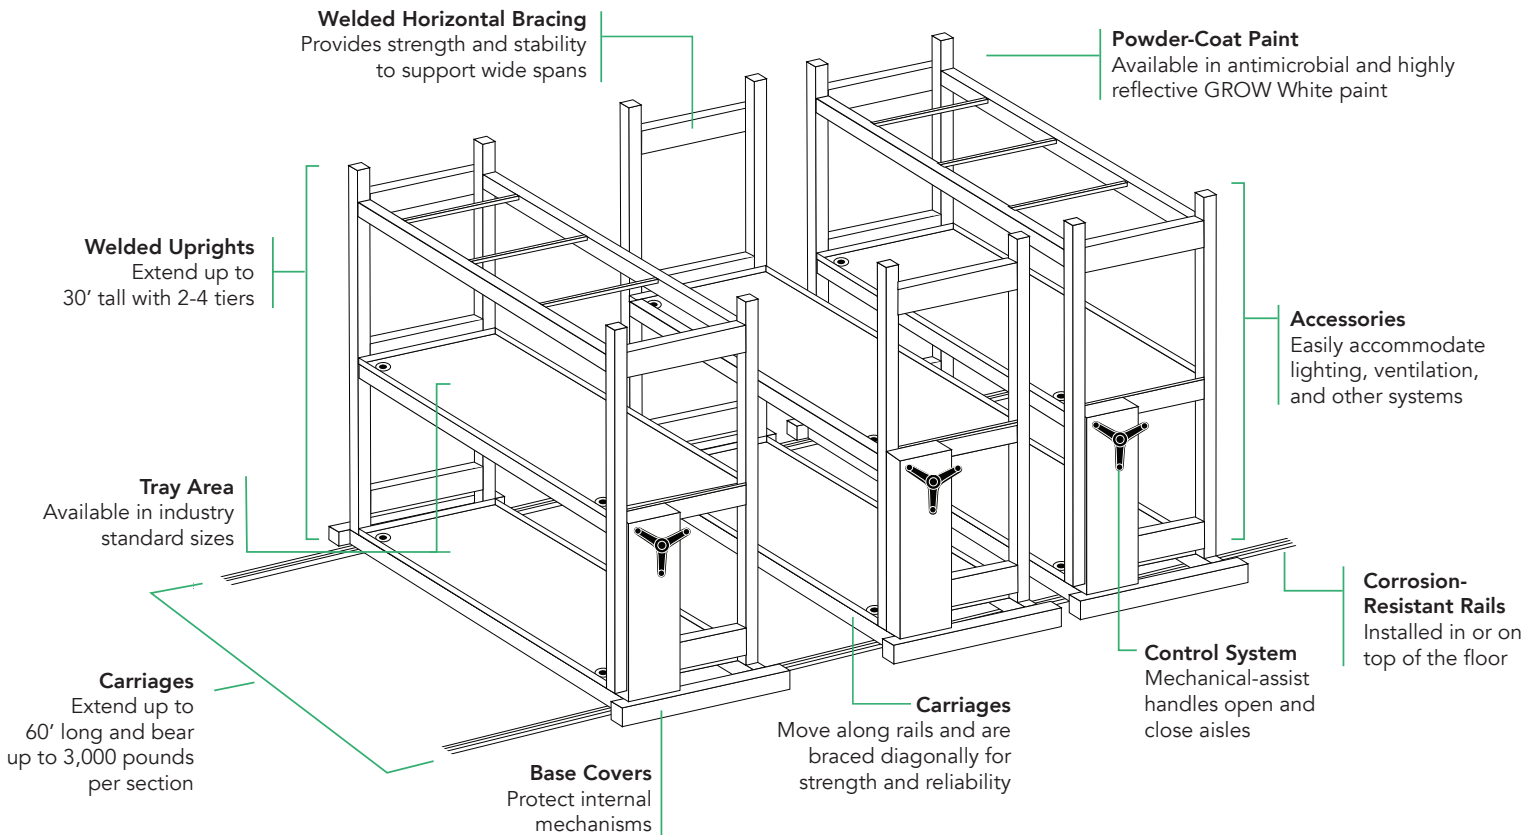

The GROW Mobile System moves to take full advantage of available floor space. It can also reach up to 60 feet long and 30 feet tall, allowing for two, three, or even four tiers of growing space.

Optimized space results in more plants per room and lower costs per plant. That means increased yields and profits without more rooms to manage.

You're the expert in growing. We're the experts in growing more.

The GROW Mobile System is designed to provide more growing area in new or existing facilities.

Each of these components is designed and manufactured specifically for your facility.

Spacesaver maximizes your space. Hawthorne optimizes it for growth.

Our partnership with Hawthorne Gardening Co. brings you expert advice and the best products in indoor horticulture. All Hawthorne products integrate with Spacesaver's GROW Mobile System to streamline workflows and improve plant health.

Ready to GROW more? Connect with the experts.

For almost 50 years, Spacesaver's innovative high-density systems have been helping businesses, universities, and other prestigious clients use their space more effectively. We've installed more than 300,000 systems world-wide and we hold more than 200 patents in space-saving technology.

With distributors in major cities across the U.S. and Canada, we have knowledgeable space-planning consultants and factory-certified service crews near you. **Contact us to get started.**
