POPULAR CONFIGURATIONS

FLEXIBLE SHELVING

In an environment created to facilitate the education and development of faculty, staff, students, and residents, flexibility is key. Flexibility to meet, flexibility to study, flexibility to create, and flexibility to collaborate.

Spacesaver's Flexible Shelving solution enables valuable available space to be used for multiple purposes. Providing users the ability to utilize their limited physical space as they see fit, this durable and versatile option can be moved and configured to accommodate the current need and easily adjusted for the next.

Below are our most popular configurations based on information provided by today's users - however, with our team of experts in design and manufacturing anything is possible. Contact your local Spacesaver representative to learn more about available sizes and custom options.
